

Make It Real

Introduction

Make It Real is a cloud based service, where you can upload a model you want 3D printed, or an idea of what you need. If you send a model we print it for you and ship to you directly. If you sent an idea, we make you a model based on that, while asking you further questions about your needs, and then send it to you. You can send your 3D model in .stl or in .step file format.

Software dependencies

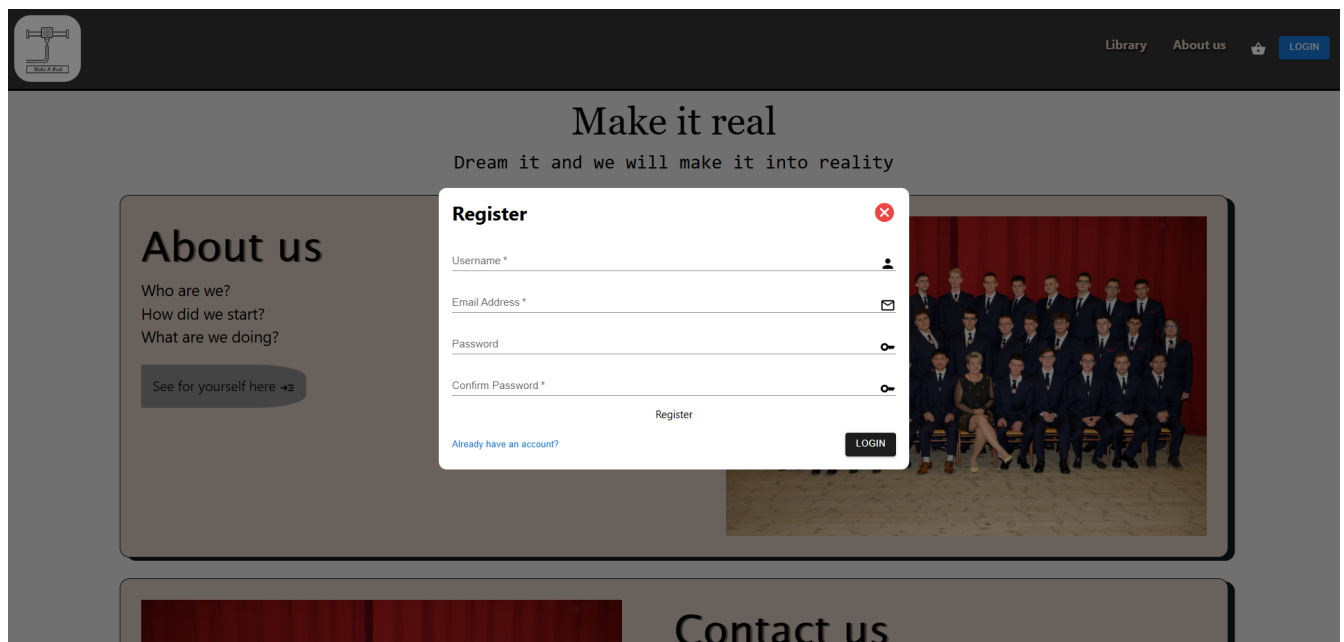

- Node.js
- React.js
- SQLite
- Slic3r

Works on all operating systems

Usage Instructions

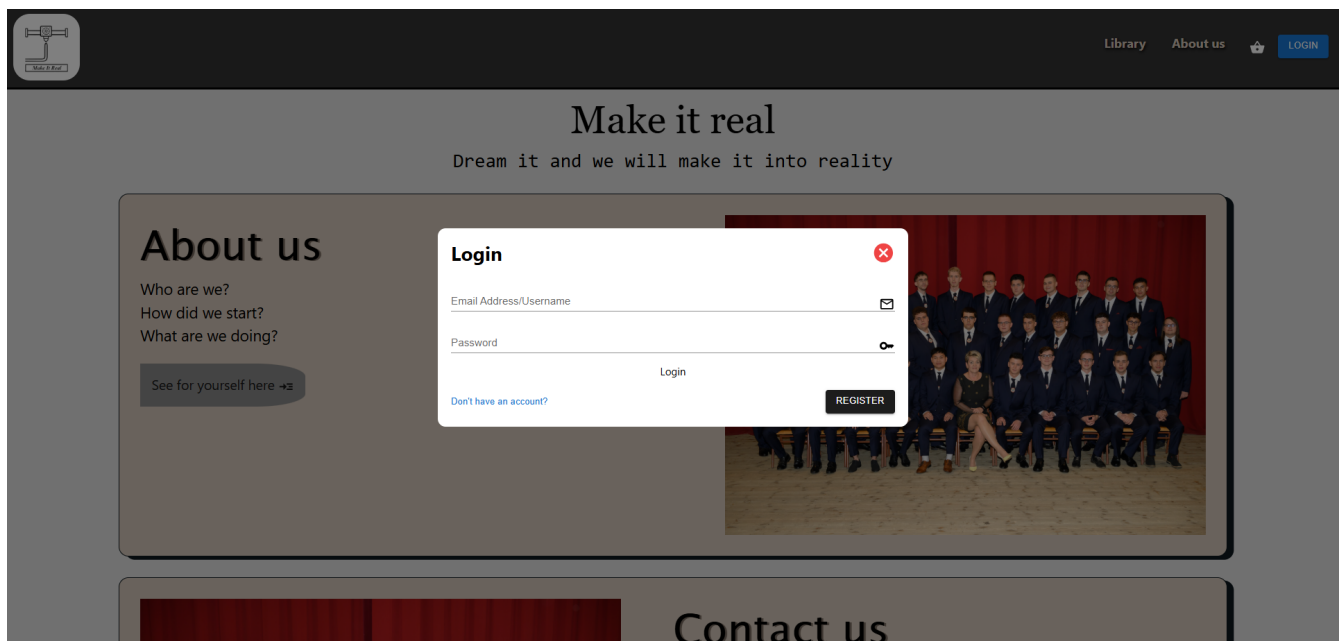

Create account

You can create an account by clicking on the upper-right LOGIN icon, then you click on REGISTER. There you have to make a username, give your e-mail address, create a password and confirm it.

Login

If you already have an account, you can log in by typing in your credentials.

Sending a prompt

You can send us a description of the item you want to be printed.
From there, we will contact you to get further information about your idea.

Uploading your model

If you send in your own design, we offer you the option of sharing your design for others to order. This is beneficial for you, because you get a percentage of every sell we make on your design.

Managing files

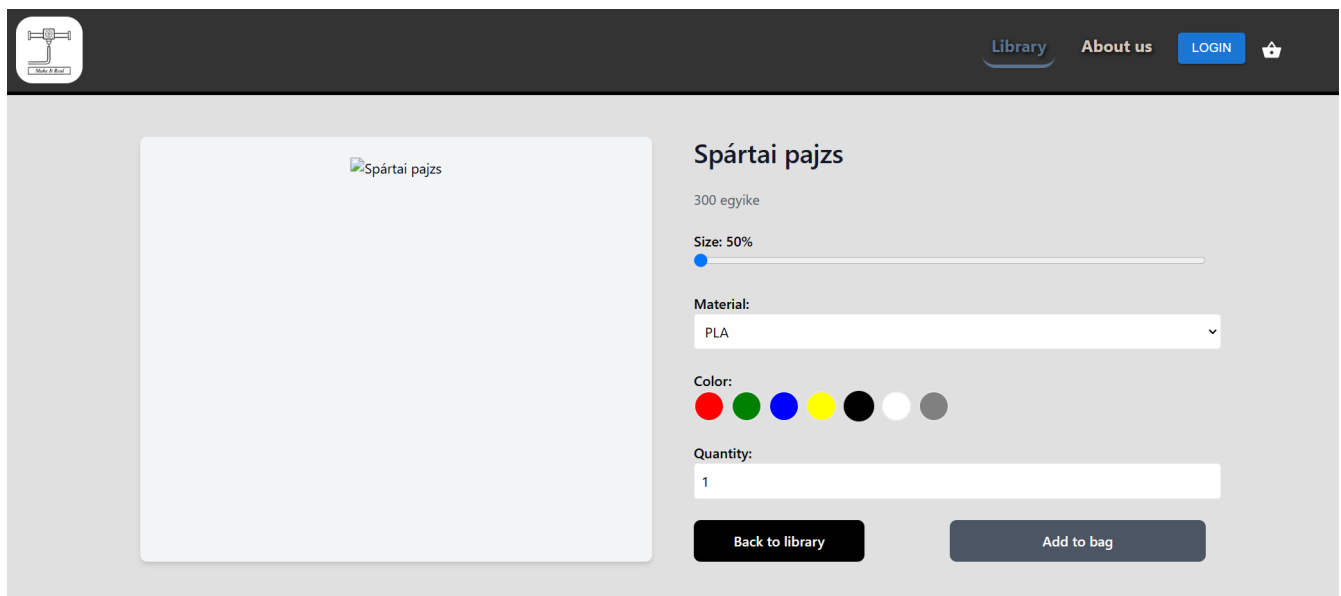

Size limits

You can upload a model to the max size of 20cm*20cm*20cm.

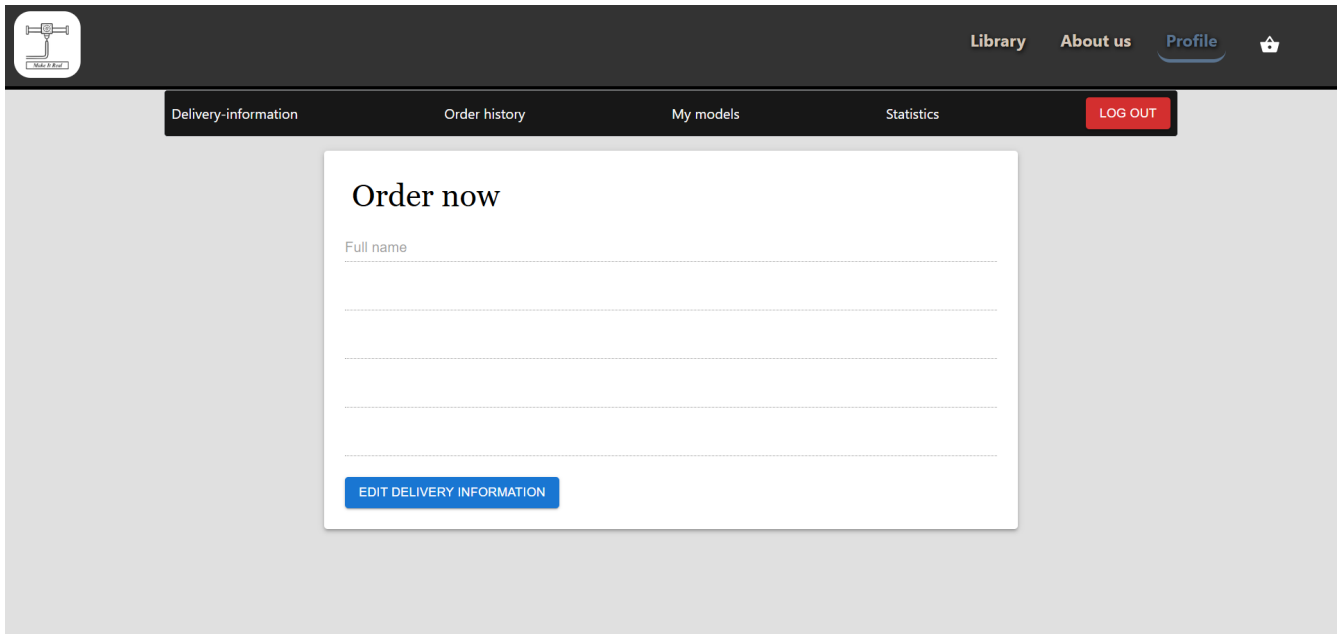

You can choose from different materials

- PLA
- PETG
- ABS

You can customise the size, the material, the quantity and the color.
